

SWAGELOK® CUSTOM SOLUTIONS – EVERYTHING FROM A SINGLE SOURCE.

1. Professional consultation – from the initial idea to the finished product

- Specifying your requirements and budget
- Outlining possible solutions
- Demonstrating potential for optimization
- Coordinating the next steps

2. Conception and planning – reaching goals together

- Synchronizing requirements
- Selecting suitable Swagelok® components and third-party components
- Discussing the proposed offer
- Specifying the process technology
- Defining the tests and certificates
- Approving the parts list and planning

3. Implementation – CAD visualization

- Visualizing your solution
- Creating drawings and models (2D/3D)
- Discussing the results
- Revising the visualization until you are completely happy with it
- Passing on to the fitting department

4. Production – fitting and testing of the assembly

- In-house fitting department
- Certified, experienced fitters
- Guaranteed implementation according to plan and agreement
- Leak, pressure and helium leak tests
- Appropriate packaging and reliable delivery

5. Your product – our guarantee

- Swagelok® Limited Lifetime Warranty
- Full documentation
- Certificates and test reports
- Final discussion of the project
- Further standardization
- Series production / new projects
